

Three paths to peace of mind.

White-glove setup. Principal-led Premium and Ultra. Not a call center.

Thomas M. Stone

Founder & Principal

TargetProof comes to your home, installs and configures enterprise-grade protection for your tier, and leaves you with a clear baseline — malware removed, MFA enforced, monitoring live.

RESIDENCE

Standard House Call

\$500 / 2 hours onsite

Focused device security for individuals and smaller households — up to three phones, laptops, or tablets.

- White-glove on-site visit (up to 2 hours)
- Malware scan & remediation (up to 3 devices)
- One-year device security suite — licensed, installed, configured
- MFA on critical accounts
- Phone, text & email protection review
- Safe browsing & breach notifications

Ideal for: an individual or couple with a handful of devices.

FAMILY · MOST POPULAR

Premium House Call

\$2,000 / full day onsite

Whole-household protection — up to five adults, unlimited devices. Identity, credit, VPN, and password management in one coordinated visit.

- Everything in Standard — extended to the family
- Identity theft monitoring & up to \$5M insurance
- Credit monitoring — all three bureaus
- Financial transaction & bank fraud alerts
- VPN, password manager & unlimited device antivirus
- Encrypted vault & mobile takeover protection
- Household cyber insurance — up to \$5M

Ideal for: families with multiple adults, blended devices, and real identity exposure.

HNWI & FAMILY OFFICE

Ultra

Custom / scoped engagement

For complex estates — begin with the Family Threat Model: one day onsite, 156 NIST-aligned controls, private Sanctuary Model on USB you keep.

- Family Threat Model — integrated threat picture
- People · Institutions · Lifestyle dimensions
- Threat Spectrum & prioritized gap roadmap
- Twelve Sanctuary remediation services to close gaps
- Physical, digital & human-layer protection
- Insured · Hiscox professional liability

30-minute private diagnostic required before scope.

One accountable principal

You know who is in the home and who owns the outcome — not a bench team.

Installed, not outsourced

Protection is licensed, configured, and verified on-site — not a link left in your inbox.

Discretion by design

Confidential intake. No client logos. No case studies with names.

Discretion is not a feature. It is the foundation.
